

Dr. Lynne Noon
Diplomate in Low Vision Rehabilitation

Dr. Corona Hoang

Our mission is to improve the quality of life for those who are visually impaired through awareness, resources and solutions

Join Us for Our NEW TECHNOLOGY OPEN HOUSE

Join the ViewFinder Doctors and staff for our **2016 New Technology Open House**. Viewfinder has always carried the largest selection of products for the visually impaired in the Southwest and continues to work with the newest and best products from around the world.

During the past year, there has been an explosion of new products and technologies for the visually impaired and blind. We have added the best of these products to our already extensive selection.

Learn about these products and try them for yourself during this event. We will have products from the following companies: Optelec, Freedom Scientific, Enhanced Vision Systems, NuEyes, OrCam, Ocutech and Eschenbach.

The open house will be held from 11:00am - 4:00pm Monday, March 21st, in our Sun City office and Monday, March 28th in our Mesa office. A light lunch will be served. While you are there, enter to win a Freedom Scientific Ruby HD portable video magnifier.

Two of Our Newest Products

NuEyes featuring ODG Smart Glasses

NuEyes featuring ODG Smart Glasses is the first ever lightweight, wireless, head worn device that is voice activated for the visually impaired. NuEyes is a very simple product to use and can be either operated with a wireless controller included with the product or by using simple voice commands. The NuEyes allows the user to read, write, watch TV and movies, see faces of loved ones, play cards, play music and regain their independence. Please visit www.NuEyes.com.

NuEyes

OrCam MyEye:

New from Israel, the OrCam is an intuitive portable device with a smart camera mounted on the frames of your eyeglasses. OrCam harnesses the power of Artificial Vision to assist people who are visually impaired. OrCam recognizes text, products and faces, and speaks to you through a mini earpiece.

OrCam

You can read newspapers and books, signs, labels on consumer products and even text on a computer or smartphone screen. Perfect for use at home and on the go. Recognize previously entered consumer products, money notes and credit cards to make shopping quicker and easier. Please visit www.Orcam.com
