Join Us for Our 2019 *TECHNOLOGY OPEN HOUSE*

Join the ViewFinder staff for our **2019 New Technology Open House**. Viewfinder has always carried the largest selection of products for the visually impaired in the Southwest and continues to work with the newest and best products from around the world.

During the past year, there has been an explosion of new products and technologies for the visually impaired and blind. We have added the best of these products to our already extensive selection. Learn about the new products and try them for yourself.

Bring your computer, tablet and smartphone questions to find the solutions that will work for you and your eyes.

Technology Open House:

Sun City Office: Monday, February 25, 2019 11:00am —2:00pm

Mesa Office: Thursday, February 28, 2019 1:00pm—4:00pm

Our mission is to improve the quality of life for those who are visually impaired through awareness, resources and solutions

The Autofocus Falcon Bioptic Telescope has Arrived

See Clearly at Distance, Intermediate and Near

We are delighted to announce that **Ocutech's new VES-Falcon Autofocus Bioptic Telescope**, the next generation of the world's only autofocusing bioptic, has arrived!

Using state-of-the-art technology, the Falcon has been in development and testing for six years. It will provide the most natural and easy-to-use telescopic vision possible for visually impaired individuals. Wherever you look, the image will be clear immediately, just like normal vision.
